g. Foreign currency transactions

- a. Transactions denominated in foreign currencies are recorded at the exchange rate prevailing on the date of the transaction or that approximates the actual rate at the date of the transaction.
- b. Monetary items denominated in foreign currencies at the year end are restated at year end rates. In case of items which are covered by forward exchange contracts, the difference between the year end rate and rate on the date of the contract is recognised as exchange difference and the premium paid on forward contracts is recognised over the life of the contract.

- c. Non-monetary foreign currency items are carried at cost.
- d. In respect of integral foreign operations, all transactions are translated at rates prevailing on the date of transaction or that approximates the actual rate at the date of transaction. Monetary assets and liabilities are restated at the year end rates.

h. Investments

Current investments are carried at lower of cost and quoted/fair value, computed categorywise. Non Current investments are stated at cost. Provision for diminution in the value of Non Current investments is made only if such a decline is other than temporary.

i. Employee benefits

Short Term Employee Benefits

All employee benefits payable/available within twelve months of rendering the service are classified as short-term employee benefits. Benefits such as salaries, wages and bonus etc. are recognised in the Statement of Profit and Loss in the period in which the employee renders the related service.

Post-Employment Benefits

Defined contribution plans:

A defined contribution plan i.e. provident fund is a post-employment benefit plan under which an entity pays fixed contributions into a separate entity and will have no legal and constructive obligation to pay further amounts. Obligations for contributions to defined contribution plans are recognised as an employee benefit expense in the Statement of Profit and Loss when they are due. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in future payments is available.

Defined benefit plans:

A defined benefit plan i.e. gratuity, is a post-employment benefit plan.

Actuarial gains and losses in respect of post-employment and other long term benefits are charged to the Profit and Loss Statement.

Employee Separation Costs

Compensation to employees who have opted for retirement under the voluntary retirement scheme of the Company is charged to the Profit and Loss Statement in the year of exercise of option by the employee

j. Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and fixed deposits with banks with original maturity of three months or less.

k. Borrowing costs

Borrowing costs (net of income on the temporary investment of those borrowings) that are attributable to the acquisition of qualifying assets are capitalised as part of the cost of such assets. A qualifying asset is one that necessarily takes a period of one year or more to get ready for its intended use. All other borrowing costs are charged to revenue.

l. Leases

Leases where the lessor effectively retains substantially all the risks and benefits of ownership of the leased asset are classified as operating leases. Operating lease charges are recognized as an expense in the Statement of Profit and Loss on a straight line basis over the lease term.

m. Earnings per share

Basic earnings per share are calculated by dividing the net profit/(loss) for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Diluted earnings per share are computed using the weighted average number of equity and dilutive equivalent shares outstanding during the year, except where results would be anti-dilutive.

n. Taxes on Income

Income-tax expenses comprise current tax (i.e. the amount of tax for the period determined in accordance with the Income-tax Act, 1961) and deferred tax charge or credit (reflecting the tax xeffects of the timing differences between the accounting income and taxable income for the period). The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the Balance Sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in the future. However, where there is unabsorbed depreciation or carry forward loss under taxation laws, deferred tax assets are recognized only if there is virtual certainty of realization of such assets. Deferred tax assets are reviewed at each Balance Sheet date and written down or written up to reflect the amount that is reasonably/virtually certain (as the case may be) to be realized. Deferred tax implications of timing differences, that originate during the tax holiday period and reverse after the tax holiday period are recognised in the year in which timing differences originate.

The credits arising from Minimum Alternative Tax paid are recognised as recoverable only if there is reasonable certainty that the respective Company of the Group will have sufficient taxable income in future years to utilise such credits.

o. Impairment of assets

Accounting Standard 28 'Impairment of Assets

An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. An impairment loss is charged to the Profit and Loss Statement in the year in which an asset is identified as impaired. The impairment loss recognised in prior accounting period is reversed if there has been a change in the estimate of recoverable amount

p. Provisions and contingencies

The Group recognises a provision when there is a present obligation as a result of a past event and it is more likely than not that there will be an outflow of resources embodying economic benefits to settle such obligation and the amount of such obligation can be reliably estimated. Provisions are not discounted to its present value, and are determined based on the management's best estimate of the amount of obligation required at the year end. These are reviewed at each Balance Sheet date and adjusted to reflect current management estimates.

Contingent liabilities are disclosed in respect of possible obligations that have arisen from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of future events not wholly within the control of the Aryan Group. Contingent liabilities are also disclosed for present obligations in respect of which it is not probable that there will be an outflow of resources or a reliable estimate of the amount of obligation cannot be made.

When there is a possible obligation or a present obligation where the likelihood of an outflow of resources is remote, no disclosure or provision is made.
